

GAURAV OJHA

Computer Science (IoT) Undergraduate · Python Developer · Data Science Enthusiast

✉ gauravo3010@gmail.com | ☎ +91 8959896989 | 📍 Vidisha, Madhya Pradesh, India

CAREER OBJECTIVE

Motivated B.Tech (CS-IoT) undergraduate at SATI seeking an internship to apply hands-on skills in Python development, data analysis, and IoT systems. Experienced in building end-to-end solutions — from data dashboards to hardware-integrated rovers — and eager to contribute to real-world engineering challenges.

TECHNICAL SKILLS

Languages Python (Proficient), C++ (Basic)

Data & Analytics Pandas, NumPy, Matplotlib, Seaborn, Power BI (Dashboards & KPIs)

IoT & Hardware Arduino, ESP32, Temperature / Humidity / Distance Sensors

Tools & Platforms Figma (UI Design), Git & GitHub, Google Colab, Tkinter

Concepts Data Visualization, OOP

PROJECTS

Sales & Revenue Analysis Dashboard | *Personal Project*

2026

- ▶ Built an interactive Power BI dashboard featuring KPIs, trend charts, top-product rankings, and dynamic slicers to derive actionable business insights.
- ▶ Designed an intuitive layout enabling stakeholders to filter data by region, date, and product category in real time.

Psychometric Calculator | *Tech Analyst Company – Internship*

2024

- ▶ Developed a Python + Tkinter desktop application that processes user responses and auto-generates structured PDF reports for psychological analysis.
- ▶ Designed the full UI/UX workflow, from intake form to downloadable output, reducing manual reporting time significantly.

IoT Monitoring Rover | *Smart India Hackathon (SIH) Project*

2025

- ▶ Built an Arduino/ESP32-powered rover equipped with temperature, humidity, and distance sensors to monitor environmental conditions in real time.
- ▶ Integrated a live data visualization dashboard for remote monitoring and alert generation.

School Attendance Management System | *Academic Project*

2025

- ▶ Designed and implemented a Python-based digital attendance tracker, replacing manual registers with an automated, query-friendly system.

EDUCATION

B.Tech — Computer Science & Engineering (IoT)

2024 – Present

Samrat Ashok Technological Institute (SATI), Vidisha | CGPA: 7.45 / 10.0

LEADERSHIP & ACTIVITIES

Tech Head | *Rudras Dance Crew – College Cultural Club*

2024 – Present

- ▶ Lead all technical and creative production for club events — managing video editing, graphic design, and digital promotions.
- ▶ Designed posters, social media graphics, and promotional reels, growing online audience engagement for events.
- ▶ Coordinated with performers and event managers to ensure seamless audio-visual execution during live performances.

CERTIFICATIONS & SELF-LEARNING

- ▶ Actively pursuing a structured Data Science curriculum covering Python, Pandas, NumPy, and Deep Learning via Google Colab.
- ▶ Completed hands-on projects on GitHub to build a job-ready data science portfolio.
